

Think, design, make

Blaauw Products works together with her customers in determining the best solution that fits the building constraints and process flow of the customer. Based on such analysis we start our design process. Once the design is optimized we manufacture the equipment tailored to our customer's situation.

**We have the solution,
or we can create it!**

Kiln Control Systems

Blaauw Products provides the most advanced control experience for kilns and furnaces. Now even more so since the introduction of the CU14 system.

The CU14 control system enables complete and accurate control of your process. It has some unique possibilities.

- ❑ **Free programmable atmosphere control: reductive atmosphere, oxidation or firing under special conditions.**
- ❑ **Multi zone control - best temperature control in the industry**
- ❑ **Integrated drying at low temperatures**
- ❑ **The most intuitive and friendly user interface**

Of course all our control systems can easily be monitored and controlled via the internet.

The Dutch Kiln Builder

Blaauw Products

Blaauw Products has been building kilns and furnaces for over 40 years. We specialize in energy efficiency, smart cycling, computer control, and we have a vast experience in the field of insulation and burner technology.

Why Blaauw:

- ❑ Heat recuperation and firing efficiency
- ❑ Full control of atmosphere
- ❑ Lowest Total Cost of Ownership
- ❑ Best temperature control, integrated drying functionality
- ❑ The most intuitive and friendly user interface

We would love to tell you more about us!

Ceramic Industry

Blaauw Products designs and manufactures a wide range of kilns, furnaces and drying equipment for manufacturers of ceramic products. Our product range varies from multiple firing zone industrial furnaces to test kilns and studio kilns.

Our customers are active in the field of:

Tableware manufacturing, refractory production, porcelain manufacturing, tile manufacturers, building materials, architectural elements, technical ceramics,

specialty products, professional potteries, studio arts, design and lifestyle products.

Glass Industry

Blaauw Products is a long-term supplier of specialty furnaces for glass industry applications; We design and make quartz annealing furnaces, frit furnaces, liquid glass tanks and crucible furnaces, cooling furnaces, preheat and reheat furnaces, slumping furnaces and various other equipment.
